How to Set Up

- While pulling the ring at the joint of the frame leg firmly, fold the leg. Your Pedal Exerciser can be stored in a compact area.
- Simply pull the legs apart, as shown in the diagram, till it clicks. Lay firmly on a flat surface. Your Pedal Exerciser is ready

Display Functions

To turn on the display, press once on the red button or start pedaling. The display automatically shuts off after 4 minutes of inactivity. All of the display Functions are activated as soon as you begin pedaling and pause when you stop. To toggle between them, press the red button until the arrow points to the desired function.

How to Change Battery for the Monitor

Loosen and remove the screws on each side side of the screen unit, then carefully remove the screen unit from its socket.

On the back of the screen unit, lift up the battery tabs and slide out the battery.

Insert a new 1.5V AG13 battery, positive side down and close the tabs.

Replace the screen unit in its socket and secure with the screws.
