

Opens stubborn jars at the touch of a button!

Model No. KC04

Prising off jar lids that are impossibly tight involves a lot of time and effort. But not any more! Just one touch of our innovative hands-free One Touch Automatic Jar Opener is all you need to make short work of even the toughest jar lid.

- Effortless, one-touch action
- No twisting, no pulling, no pain
- Powerful enough for new, factory-sealed jars
- No bottle or jar too tall

One Touch Does It All!

- Patented technology
- Opens all jars with 28 to 103mm diameter lids
- Hands-free operation
- Ergonomic fit – to suit most hand sizes and both hands
- Contemporary design to suit any kitchen decor
- Runs on 2 x AA-sized alkaline or rechargeable batteries
- Dimensions: 186 x 91 x 68 mm

Introducing the world's first truly hands-free cordless jar opener!

Revolutionary one-touch technology makes easy work of stubborn lids

It's As Easy As 1, 2, 3!

Place the opener on top of the jar and press the button until the motor starts.

Outer jaws clamp the jar while the inner jaws clamp the jar lid and then turns the lid loose.

The opener loosens the lid and switches itself off. Remove the lid.
